COMPLETE HEATING SYSTEM

For Bending and Forming Plastics

SYSTEM INCLUDES

- 4 Heating Trays
- Control Box
- Fence / Stop
- Frame Kit

Scan QR Code
for More Information

Specifications:

- 120 Volt AC / 60HZ
- 800° Operating Temperature.
- 62" Wide x 54" Deep x 5" High.
- 48" Wide x 48" Deep Working Area.
- 68 lbs Approximate Assembled Weight.

U.S. Patent No. 5025137

Features:

- Micro Processor Controlled.
- Built in 3 Function Timer.
- Ultra Hi-Temperature Insulation.
- Sealed & PTFE coated working area.
- Heating Trays have a **1 3/4" center to center** measurement when put side by side.
- Powder coated finish.

Model No.	Description	Price
48-48AEC	1/2" Complete Heating Unit	\$1,925.00
48-48AEC/4	1/4" Complete Heating Unit	\$2,100.00

To Add an Extra Tray or Fence:

FS-48T	1/2" Extra Table Heating Tray	\$295.00
FS-48T/4	1/4" Extra Table Heating Tray	\$350.00
88076	Extra Fence / Stop	\$140.00

Model Usage Guide for Material Thickness:

48-48AEC 1/8" and thicker material
48-48AEC/4 .100" and thinner material

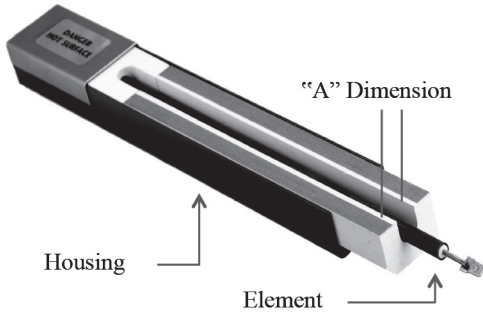

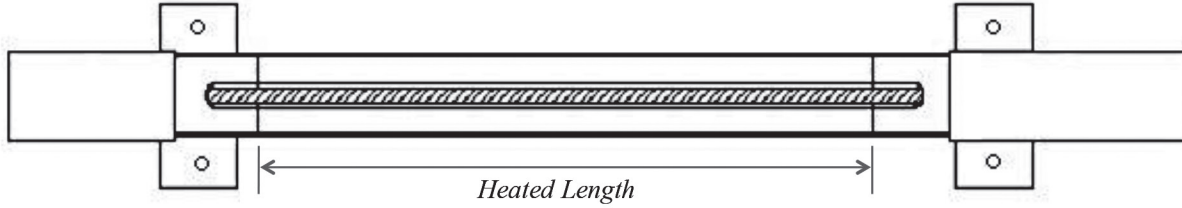

Replacement Trays

TT-48A	1/2" Table Tray (AEC)	\$295.00
TT-48A/4	1/4" Table Tray (AEC)	\$350.00

This System prepares thermoplastic materials for forming all-angle bends, and **REDUCES FABRICATION TIME** both in setup and multiple bend operations. Unit has independently operated and movable heating trays, index rules on either side of table, full usage of working area allows you to work from both sides of the table at the same time. The adjustable fence may be positioned anywhere within the frame. Units are completely self-contained and requires **NO SPECIAL WIRING.** (120 volt 15 amps)

FREE-STANDING HEATERS

U.S. Patent No. 5025137

Our Heating Trays have been exclusively designed to give constant professional bends while working with all types of thermoplastic materials, Acrylic, PVC, CPVC, Polypropylene, Polycarbonate, and more. These heaters are ideal for straight line bends or folds and capable of heating material up to 1/2" thick.

- Maximum operating temperature of 800°f.
- Free standing heaters can be used with the AEC15 power control (see page 3).
- Powder coated steel tray and PTFE working surface.

1" & 2" WIDE X 48" FREE-STANDING HEATERS

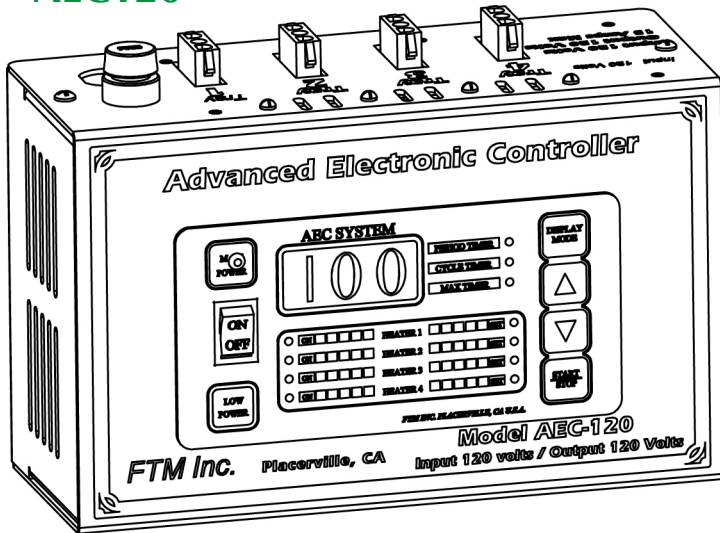

Model No. FS-48W1 and FS-48W2

- FS-48W2 Ideal for material up to 1/2" thick, or thinner material requiring a wide radius.
- Use with AEC15 Power Control to tailor the working temperature to your exact needs.

120 VOLT POWER CONTROLLERS

AEC120

This **120 Volt** Stand Alone **Advanced Electronic Controller (AEC)** is our 4th generation Power Control. We feel it's the **MOST ADVANCED** in the industry.

AEC SYSTEM FEATURES:

- Micro Processor.
- Custom Software.
- Custom Designed Solid State Circuit Board.
- Large Digital Readout Display.
- Touch Pad Controls.
- Built-in 3 Function Timer.
- Low Voltage Warning.
- Main ON / OFF switch.
- Individual Indicator Light for each tray.
- Each Heating Tray is individually controlled.
- Each Tray can be unplugged from AEC.
- 4 Channel (each at 3.5 amps max)
- Controller requires 4 tray cords #3205.
(Sold Separately)

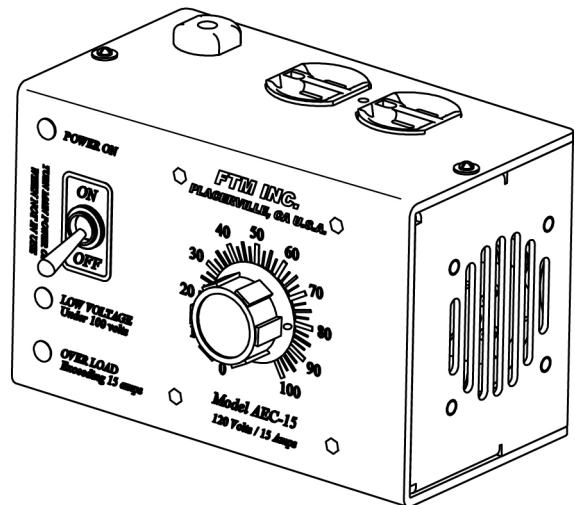

Model No.	Voltage	Price
AEC120	120	\$420.00

Extra Tray Cords

3205	Tray Cord	\$8.00 each
------	-----------	-------------

AEC15 Controller

This rugged controller is FTM's **3rd Generation** power control. The AEC15 was built from the ground up using the same sophisticated Advanced Electronic Controller (**AEC**) technology we use in our AEC120 controller. Using a Digital Micro Processor allows the AEC15 to have **OVERLOAD PROTECTION**. If the controller senses an amperage overload, it will automatically limit the current flow to 15 amps and warn the operator with an indicator light. The controller also has a **LOW VOLTAGE** indicator light that warns you if your supply voltage drops below 100 volts. The power control has a rugged **ANODIZED ALUMINUM HOUSING** with an internal **COOLING FAN!** This advanced technology, designed for FTM's equipment, is now user friendly with **NiChrome wire**.

Model No.	Voltage	Price
AEC15	120	\$249.00

SILICONE HEATERS

Our **WIDE HEAT** Silicone Heaters now give you the ability to heat thermoplastic material up to **6" WIDE**. Ideal for material up to **1½" thick**, or thin material requiring a wide radius. Also ideal for heating rod or tube material, as flexibility of heater will allow you to bend or wrap it to fit. Can be used with our **power control**, which allows you to tailor the working temperature to your exact needs.

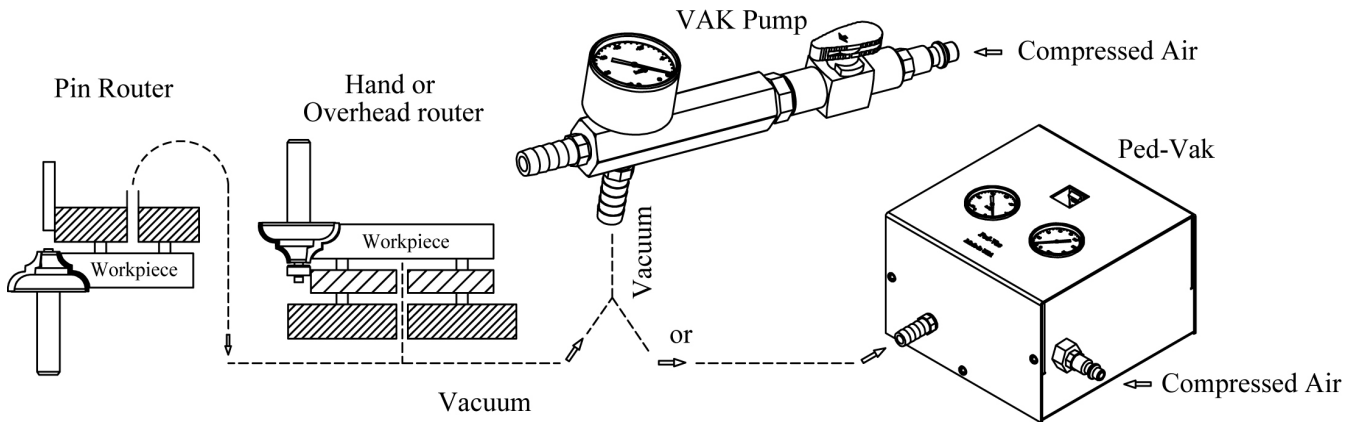

Specifications: All Heaters are 120 Volts, 60hz

Part No.	Heated Area	Amps / Watts	Maximum Temperature	Price	
4101	1" x 29"	1.20/145	All stock heaters are 5 watts per sq. inch and heat to a maximum surface temperature of 475°F. CUSTOM sizes and watt densities are available upon request and have approximately a 4-5 week lead time from time of order.	\$69.75	
4102	2" x 29"	2.42/290		\$95.55	
4103	4" x 29"	4.83/580		\$120.45	
4104	6" x 29"	7.25/870		\$169.00	
4201	1" x 41"	1.71/205		\$80.45	
4202	2" x 41"	3.42/410		\$114.10	
4251	1" x 53"	2.17/265		\$83.55	
4252	2" x 53"	4.41/530		\$148.30	
4253	4" x 53"	8.83/1,060		\$205.35	
4254	6" x 53"	13.25/1,590		\$289.25

VACUUM / CLAMPING - SYSTEM

Strong clamping with over **1800 pounds/sq.ft** of force to hold work pieces for sawing, sanding, forming, and all **Routing** functions. No mechanical clamps to get in the way. **Heavy Duty system creates more holding force on porous materials and evacuates at twice the speed of the standard system.**

PLASTIC CUTTER SERIES

Designed for general purpose cutting applications, the Plastic Cutter blades will perform very well in a wide variety of plastic materials.

PC-25580CB	10"	For cutting a variety of plastics on 10" saws.	80	.102"	5/8"	\$85.00
PC-305100CB	12"	Fine cutting blade for working with plastics.	100	.110"	1"	\$115.00

PRO SERIES FOR PLASTICS

Laser cut, press-tempered, individually tensioned, and chrome-plated bodies bring the cutting edge to the workpiece with unparalleled precision. Each blade features high-grade, fine-grain C4, wear-resistant carbide tips for long life.

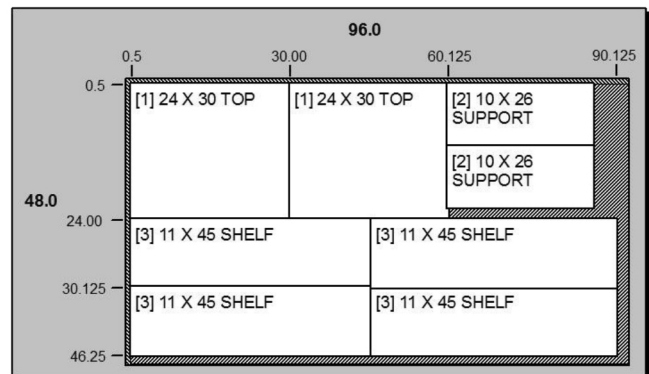

PRP-25580CB	10"	Exceptional cuts in standard stock.	80	.125"	5/8"	\$150.00
PRP-305100CB	12"	Superior plastic cutting blade, none better.	100	.134"	1"	\$190.00
PRP-355100CB	14"	Great for a variety of plastic materials.	100	.134"	1"	\$216.00

OPTIMIZE YOUR CUTTING PLANS

Other programs cost more, the ITEMIZER does more...

- Efficient Cutting Plans in Minutes
- Prevent Costly Cutting Errors
- Smart Drag and Drop
- Diagrams for Cutting

7603	Itemizer	\$189.00
-------------	-----------------	-----------------

The Itemizer computer software (*available as download only*) develops optimized cutting plans using dedicated routines for panel, roll, and linear stock. It is used by all industries that require optimization for their cutting processes.

A user defined default start-up file eliminates common or repetitive entries and power search routines boost efficiency by analyzing multitudes of cutting schemes. The part bin feature provides a means to rearrange, reorient and relocate pieces. You can turn pieces vertically or horizontally and move pieces between layouts. You have complete control to tweak the cutting plans after they are automatically generated. Smart Drag and Drop warns you if a piece doesn't fit in its new location or if sheet cutting quantities are affected.

Multi-view shows all or any portion of your layouts on one screen and can be printed accordingly, reducing the amount of drawings required for the shop. Grain can be set for individual items and grain indicator lines can be displayed. User selected descriptions can be printed on the drawing and sheet stock pick lists can be employed to speed stock entry.

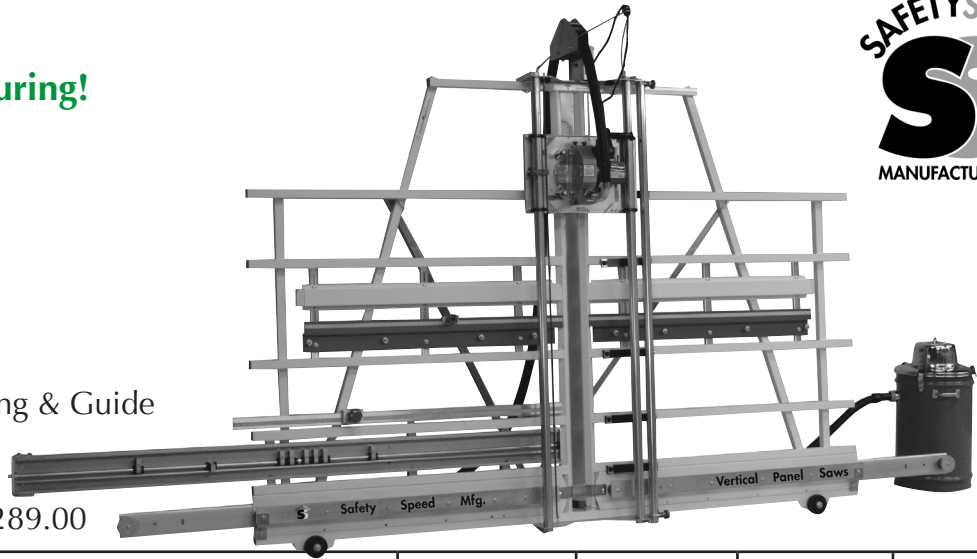

The program figures cost, prints custom labels, selects optimum sheet size, works in English or metric units, exports DXF and coordinate files for CAD and CNC purposes and more.

VERTICAL PANEL SAWS

Safety Speed Manufacturing! Made in USA

- 1 Person Operation
- Dust Ports
- Industrial-Duty Motors
- Material Rollers

LEISTER HOT AIR TOOLS

TRIAC AT

Features:

- Rugged design suitable for the work site
- Adjustable digital temperature control setting
- Adjustable air volume setting
- Digital «e-Drive» display
- Ergonomic handling
- Dual Air Filters

The new **Triac AT** is ideal for plastic welding. It allows you to control your temperature and airflow separately. These two parameters are critical for many plastic welding applications. Temperature settings and airflow settings are easily viewed and adjusted using the new e-drive display. The **Triac AT** incorporates a temperature probe that guarantees a precise temperature. Dual air filters are easily removed for cleaning. The **Triac AT** features a protective heater tube for user safety. The Leister **Triac AT** has been designed with you the plastic welding professional in mind .

Model 141.316	Triac AT	120 V/1600W	\$499.00
---------------	----------	-------------	----------

Features:

- Adaptor tube with heat protection
- Electronic heating element protection
- Motor shut-off at minimal carbon level
- Suitable for continuous operation
- Dual Air Filters

Leister's Triac ST is the newest in the Leister line up. Replacing the Triac S, the Triac ST offers enhanced ergonomical design and the same Dual Air Filters found in the Triac AT. The **NEW ST** is economical, extremely rugged, and designed with dependability and long life in mind. Simply plug in the tool and turn it on; select your temperature and you are ready to go. The tool is self-contained, there is no need for additional compressors or hoses.

LEISTER HOT AIR TOOLS

DIODE S

Features:

- Electronic temperature control
- Overheating protection for elements
- Heat protection sheath covers the barrel of the tool
- Push fit nozzles for a wide variety of welding rod sizes
- Air supply provided by optional Minor Blower or Robust Blower (can also be used with regulated shop air)

The Leister **Diode S** is our most popular “PEN” style plastic welding tool. The **Diode S** is easy to handle and lightweight. This tool is ideal for working in tight areas. Step-less electronic temperature control allows the user to weld all types of plastic easily. The **Diode S** combined with the Minor blower makes this a truly portable welder.

Model 101.291	Diode 'S' Hot Air Welder	120V/1600W	\$521.00
Model 101.281	Diode 'S' Hot Air Welder	230V/1600W	\$516.00

Minor Blower Features:

- Airflow: 400 liters/min – 14 CFM
- Weighs 1.15 kg – 2.53 pounds
- W/3 meter cord

Minor Blower (pictured with Diode S) The Minor Blower is small but mighty. This very powerful blower can provide ample airflow for the Diode. The Minor Blower combined with Leister welders provides a portable air supply.

Model 101.447	Diode 'S' with Minor	120V/1700W	\$912.00
Model 101.441	Diode 'S' with Minor	230V/1700W	\$902.00

613/180	180 Grit 2" Wheel			
613/240	240 Grit 2" Wheel			

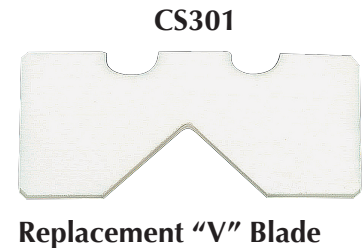

Ideal for finishing edges on all types of plastics, especially radius and holes that are normally hard to finish. The small abrasive flapwheel consists of resin-bonded aluminum oxide abrasive cloth flaps attached to a spindle-mounted core. These flapwheels are used on portable / hand held power tools to **sand, debur, or finish** small or hard-to-handle parts. Suitable on plastics, metal, and wood.

DEBURRING, SCRAPING & SCRIBING

Ceramic deburring tools have an unsurpassed flatness and square edges ideal for scraping flat surfaces as well as beveled and radius edges. These quick and handy tools make it easy to debur holes and curves of any size. Ceramic deburring knives improve safety in manufacturing environments. Ceramic blades stay sharp when working on hard plastic, glass filled nylons, ABS, melamine and soft metals. Once you have used one you will be sold for life!

Part No.	Description	Each	2	6
CS100	Ceramic Blade w/Handle 25mm long Edge	\$25.65	\$22.75	\$21.25
CS200	Ceramic Blade w/Handle 40mm long Edge	\$25.65	\$22.75	\$21.25
CS300	Ceramic Two Edge "V" Blade with Handle	\$38.90	\$36.55	\$35.65
CS301	Ceramic Two Edge Replacement "V" Blade	\$30.10	\$28.25	\$27.55

Part No.	Description	Each	2	6	12
5360	Tapered Point Scraper	\$2.75	\$2.65	\$2.50	\$2.35

This Tapered Point Scraper has a high carbon blade with a triangle shape for deburring edges. The tapered point easily gets in and around small holes.

Part No.	Description	Each	2	6	12
5370	Scribe	\$2.70	\$2.50	\$1.95	\$1.75

Easily scribe lines in acrylic for controlled breaking. High carbon blade and comfortable grip handle makes this tool a favorite with fabricators.

"NEW" Tandem Edge Scraper Part No. TS150

- Saves time which reduces labor costs
- Scrape up to 1½" thick edges
- Works on 90° and angled edges
- Replaceable twin scraping blades
- Tough powder coated steel design
- Made in the USA

\$27.95

DRILL SETS FOR PLASTICS

Black and Gold Series; Special Hi-Molybdenum tool steel, gold surface treated body, flute and point for maximum lubricity. Super CHIPFREE™ point is precision ground at a 60 degree angle for gradual penetration to avoid cracking and chipping of the acrylic material. 1/8" - 1/4" drills have a straight shank, 5/16" - 1/2" drills have a 1/4" reduced shank. High quality soft case securely holds and protects drills. Case has hook and loop closure and a convenient belt clip.

1/4" Reduced Shank

Part No.	Description		Price
BG4500	7PC Set	1/8" to 1/2" in 1/16" increments	\$49.37

Acryl-Point™ drills are designed to cut acrylics. Included angles and the cutting angles are reduced to keep the drill from biting into the acrylic too fast. 80 degree point produces a clean hole and prevents the drill from breaking the acrylic when drilling through the backside.

Acryl-Point™ Drills

Part No.	Description		Price
31700	7PC Set	1/8" to 1/2" in 1/16" increments	\$71.20
31725	15PC Set	1/16" to 1/2" in 1/32" increments	\$137.35
31750	29PC Set	1/16" to 1/2" in 1/64" increments	\$263.70

Large Size Drill Sets! Large size and complete sets offer sizes up to 1". Drill sizes from 1/16" to 1/2" are straight shank, and drill sizes from 9/16" to 1" have a 1/2" shank. These sets include Acryl-Point™ drills in a Huot metal drill index. Drill set 31800 comes in one case, drill set 31900 comes in two cases.

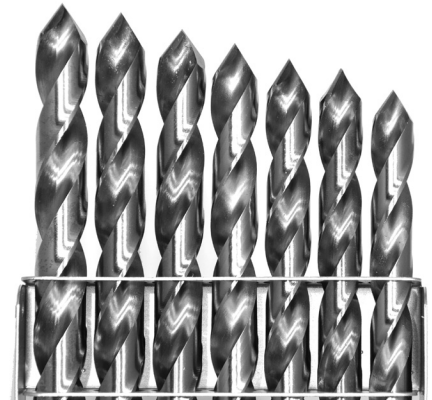

Large Drills

Part No.	Description		Price
31800	8PC Set	9/16" to 1" in 1/16" increments	\$350.90
31900	37PC Set	1/16" to 1/2" in 1/64" increments, 9/16" to 1" in 1/16" increments	\$629.00

Specialty Sizes! Numbered, lettered, & metric sets include Acryl-Point™ drills in a Huot metal drill index. All drills are straight shank. Adding a numbered, lettered, & metric set to your shop will allow you to meet the high tolerance needs of your customers!

Specialty Sizes

Part No.	Description		Price
32000	12PC Set	2mm to 13mm Whole #	\$124.15
33000	23PC Set	2mm to 13mm in 1/2 mm increments	\$230.25
34000	26PC Set	A to Z Lettered	\$248.55
35000	52PC Set	1 to 52 Numbered	\$251.15

INDIVIDUAL DRILLS

INDUSTRIAL QUALITY HSS DRILLS

BLACK & GOLD SERIES

Special Hi-Molybdenum tool steel, gold surface treated body, flute and point for maximum lubricity. Super **CHIPFREE™** point is precision ground. **Avoid cracking and chipping in acrylic material.**

- Specifically for acrylics
- Tool Steel
- 60 degree tip angle
- Eliminates grabbing on break-through

Above Drills are straight shank

Acryl-Point™ Drills are specially manufactured to produce smooth holes in acrylic. The special Tip Angle allows for gradual penetration of material thus eliminating damage to back side of material. **Modified Rake Angle of 0° & Cutting Edge Clearance of 10°** produces the smooth **CHIP FREE** hole required when working with acrylics.

SOLVENT APPLICATOR BOTTLES

These LDPE Needle Cap applicators are available in an ergonomic 1-1/4 oz. oval, and a larger 2 oz. capacity round bottle. Both sizes are offered with either 23 or 25 gauge Needle Cap assemblies with a protective sheath. These bottles are ideal for water thin solvents and a favorite with Fabricators. Replacement needle cap assemblies may be purchased separately.

Needle Cap Specifications			
Gauge	Color	ID	Length
23	Blue	.016"	1"
25	Orange	.012"	1"
Polypropylene hub with 304 stainless steel tubing.			

Part No.	Description	Each	25	50	100	250
OB23	1-1/4oz Oval Bottle with 23 Gauge Needle Cap	\$1.95	\$1.85	\$1.50	\$1.25	\$1.15
OB25	1-1/4oz Oval Bottle with 25 Gauge Needle Cap	\$1.95	\$1.85	\$1.50	\$1.25	\$1.15
RB23	2oz Round Bottle with 23 Gauge Needle Cap	\$1.95	\$1.85	\$1.50	\$1.25	\$1.15

LC2**	Lure Cap, Bottle & Needle, Kit	2oz	\$1.45	\$1.35	\$1.05	95¢	80¢

** For part number; Indicate needle gauge when ordering Lure Cap, Bottle & Needle Kit. Choose from 20, 23, 25 or 27 gauge. (Example "LC2-20" for 3 Pc. Kit with 20 gauge needle.)

Lure Cap and 2oz Round Bottle for KDS Needles						
Part No.	Description	Each	25	50	100	250
LC512	Lure Cap (fits RB2 Bottle)	75¢	70¢	55¢	45¢	40¢
RB2	2oz Round Bottle (Bottle Only)	60¢	55¢	45¢	40¢	35¢

This Lure Cap System with 2 oz. round LDPE bottle accepts all our KDS needles, allowing the user to easily change the needle gauge from the very small KDS27 (used for fine work with water thin solvents) up to the KDS16 (for thicker solvents and gels). If it's a longer needle you're in search of, try this system with one of our 3" long needles available in both 23 and 25 gauge.

See list of KDS needles on page 20!

FLEX-FOLD2™ HINGE

High-Impact Acrylic

Flexible Urethane

Ball and Socket Design

The Flex-Fold2™ is an all-weather, transparent plastic hinge with rugged durability, co-extruded from high-impact acrylic and a tough urethane elastomer center. Both quality materials are UV stable for reliable long-lasting service life in extreme climates from tropical heat to Arctic cold.

The Flex-Fold2™ is highly recommended for bulk food bins, pastry cases, golf cart windshields, outdoor literature boxes, displays, safety shields, exhibits, laboratory apparatus plus a variety of other industrial and commercial applications.

PIANO HINGES

The **6" & 12" Acryl-Hinges** are designed with our trademark Micro Dots® that create a gap between the hinge and cementing surface to improve solvent flow. Acryl-Hinges are molded using High Strength Acrylic for superior strength, and feature ultra-flat glue surfaces that makes bonding quick and trouble free. The hinge pins are self-lubricating acrylic and splined at one end to prevent them from working loose. The sleek low profile design offers a clean and finished look your customers will appreciate.

7300	Micro Filament Premium Cloth 13" x 13" (25)	90¢	80¢	75¢	70¢

About Micro-Filament

Using the wrong cloth when cleaning plastics can damage the surface. Standard paper toweling, polyester or rayon cloths leave scratches in plastics. Eliminate this problem with a reusable Micro Filament Premium Cloth. These soft cloths are highly absorbent, anti-scratch, low lint and extra durable. When a Micro-Filament Cloth gets dirty, simply wash out with soap and water, and air dry.

KLEENMASTER BRILLIANIZE

COTTON WORK GLOVES ON PAGE 29

Reduce clean-up time by eliminating fingerprints on fabricated parts.

BUFFING COMPOUNDS

All compounds are sold in **2"x 2"x 10"** Bars - Approx. Weight for each compound is listed.

FINAL FINISH COMPOUND

Part No.	Item	Description	≈ Weight	Each	6	12
CO4XW	White Diamond 4X	Medium Dry	2.2 LB	\$6.35	\$5.85	\$5.00

Use: Very popular for use on Acrylic Sheet or where a smooth, scratch-free finish is desired.

BASIC FINISH COMPOUND - FAST CUTTING

Part No.	Item	Description	≈ Weight	Each	6	12
COT19	Red - Tripoli T19	Medium Wet	2.0 LB	\$3.10	\$2.90	\$2.50

Use: Most popular - Excellent fast cutting on plastic. Used before finish compounds.

BEWARE NOT ALL BARS ARE CREATED EQUAL: Heavier weight bars can contain more fillers and less cutting compounds. What you save in cost now will cost you **MORE** in lost time at the buffing wheel.

BUFFING WHEELS

All Buffs have a **1"** arbor hole size

Part No.	Description	Each	6	12

B1040S	10" x 40 Ply 1" Concentric Stitched Buff	\$13.10	\$12.00	\$11.00
1901	Rake, for cleaning buffs	\$14.50	\$13.00	\$11.95

Bufs consist of **LAYERS** of Cotton Muslin with a weave of 60/60 and a Fine Raked Edge. This provides a **LONGER LASTING BUFF**.

NOTE: Concentric stitched buffs eliminate the HARD spot that spiral stitched buffs have.

COTTON WORK GLOVES

Greatly reduces clean up time by eliminating fingerprints on fabricated parts. Available in Men's or Women's sizes. Gloves are sold by the Dozen Pair Only.

Part No.	Description	Each	6 DZ	12 DZ
712N	Men's Size	\$6.95	\$6.25	\$5.75
711N	Women's Size			

TAPES

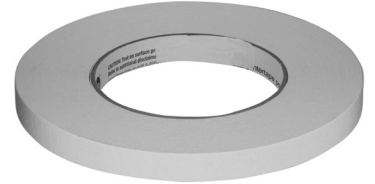

INTERTAPE Double Coated Tapes - Heavy-Duty (7 mil)

A bleached flat back paper product coated with a high shear resistant pressure-sensitive natural rubber/resin adhesive on both sides that bond equally as well to almost any surface. White colored, easy release treated crepe paper liner allows for either machine or hand application. The 591 tapes hold securely and release without residue left behind.

Used for:

- Template Routing
- Golf Grip Repair
- Photographic Mounting
- Carpet Installation

Part No.	Description	Each	12	48	96
591/500	12MM (1/2") wide x 36 yards	\$4.45	\$4.10	\$3.70	\$3.55

MICRO-MESH FINISHING PRODUCTS

KR-70 ACRLICE RESTORAL KIT Use this kit by hand to restore up to 30 square feet of acrylic. This versatile kit will remove light damage and restore optical clarity. The included MICRO-GLOSS™ liquid abrasive can be used as a cleaner.

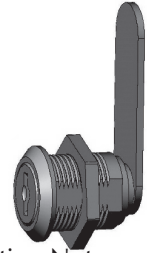

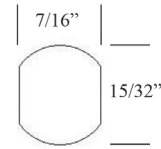

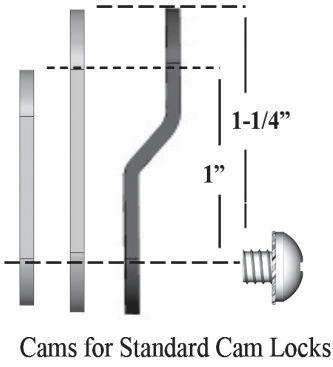

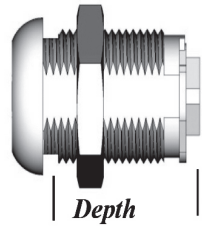

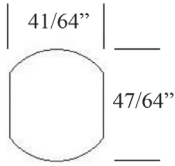

3KAQK AQUARIUM KIT Use on acrylic tanks to remove scuffs and scratches. Abrasives may be used on the inside of the tank with fish and water in place, however we suggest removing to avoid any contamination.

3KCOUNT SOLID SURFACE COUNTERTOP REPAIR KIT This kit is specially designed for spot repairs and to touch-up solid surface countertops when they become damaged.

3KHDLGTM ACRYLIC HEADLIGHT RESTORAL KIT Return your headlights to "Like New" condition, improving illumination and appearance. This system includes applicator pad for use with hand held electric drills.

Part No.	Description	Price
KR-70	Acrylic Surface Restoral Kit - Restores up to 30 Sq. Ft.	\$26.50
3KAQK	Aquarium Kit - restores up to 20 Sq. Ft.	\$18.00
3KCount	Countertop Repair Kit	\$9.00
3KHDLGTM	Acrylic Headlight Restoral Kit	\$39.00

NEW ACRYLIC CAM LOCK

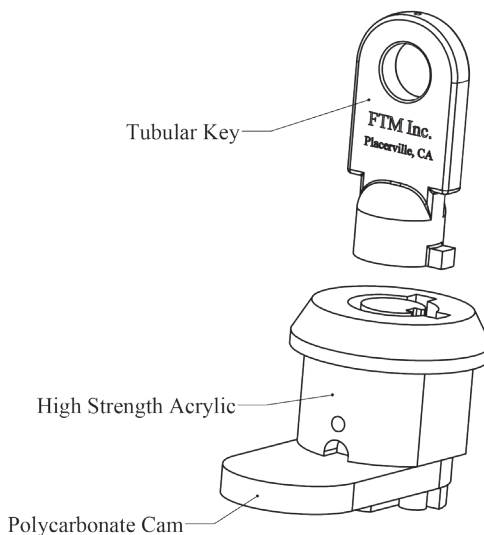

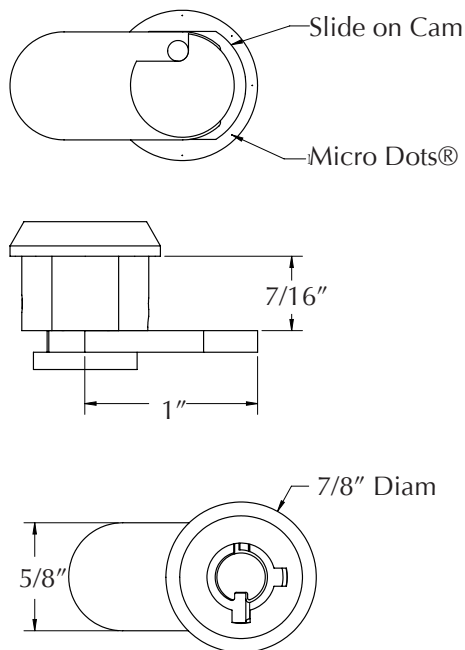

Patent Pending

First Ever! ACRYLIC CAM LOCK

- High Strength Acrylic
- Solvent Cementable
- Micro Dots®
- Polycarbonate Cam and Internal Parts
- 90° Rotation
- Tubular Key
- Labor Saving

Supplied with 1 key and 1" Flat Cam

Note: use drill PD750 for mounting hole

INTRODUCING from FTM THE FIRST EVER SOLVENT CEMENTABLE CAM LOCK

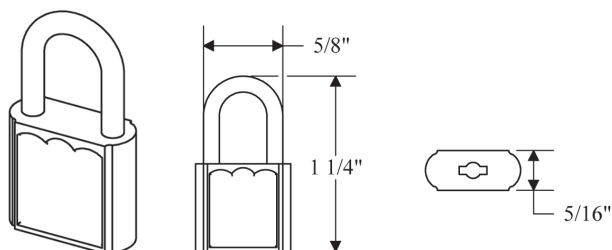

Designed with Micro Dots® to be solvent cementable, this new concept offers labor savings and a fresh new look for your displays. All internal parts are made with polycarbonate for superior strength, and a high strength acrylic housing for easy solvent cementing. The Double D shaped housing fits a standard cam lock hole, or use a 3/4" drill **PD750 (page 14)** for a round hole. When a round hole is used the flat side of the cam lock can be used to ensure proper alignment.

Why solvent bond a cam lock? Solvent bonding stops cracking problems caused by an over tightened mounting nut, and a solvent bonded lock won't turn when installed in a round hole. **Try one on your next display.**
